

CORPORATE CONSULTING ASSOCIATES

PROFESSIONAL INTERIM MANAGEMENT DIVISION

OUR VISION:

- We value the long-term relationships built not only with clients, but also with the professionals we represent.
- At Corporate Consulting Associates (CCA), success is measured by the positive impact an individual makes in his/her new role.
- What sets Corporate Consulting Associates apart in the search industry is making the optimal match between the professionals we represent and the opportunities in the marketplace.

WHAT MAKES US DIFFERENT?

- Our Professional Staffing Division is a natural extension of the Retained and Contingency Search Practice. We focus on highly skilled positions that are often long-term contracts with options to renew.
- All positions that are greater than six months in duration and renewable, are eligible for our highly competitive benefit plan which includes: **Personalized Time Off (PTO) accrual intended to provide compensation for vacation days, personal and sick days, paid holidays, Healthcare and Dental Insurance, and 401(k) participation.**
- Personalized Service provided by professional consultants who are devoted to understanding the position and accurately identifying candidates who meet the client's expectations and requirements.
- Our professional consultants take the time to personally meet our clients to better understand their environment, culture and profile.
- CCA recognizes that our contract employees are a direct extension of our own consultants and we look to treat them accordingly.
- CCA acknowledges the cost pressures faced by our clients; therefore, we offer financially attractive contract arrangements to successfully hire the most qualified contract professional.

CLIENT BASE:

- Our client base is comprised of Fortune 500 corporations, consulting and public accounting firms; as well as, small to medium size, privately-held companies.
- We represent various industries (i.e. manufacturing, high tech, service, banking, entertainment, real estate, advertising, consumer products, consulting, retail, etc.)
- Geographically, our market is concentrated within the Midwest / Great Lakes Region; however, our searches are conducted throughout the domestic United States.
